-We record one more breach of faith on the par of the Rebels in reference to the exchange of Col. Corcoran. Our boat went up the James River to City Point on Monday night with the released privateers, but instead of making the exchange, word came from Richmond that Gen. Huger had exceeded his authority in promising it, and more time was wanted for deliberation. The boat remained two days, but got no answer from the Rebel Government, when she returned. The privateers concerted a plan to seize the boat, but it was discovered in time.

-Intelligence from South-Western Missouri and Arkansas represents all favorable for the right side. The army of Gen.
